

To all the parents of children from group 1 – group 3,

ISTO's aim is to serve as many clients as we can.

Therefore we ask you to have your son or daughter up to group 3 treated as much as possible in the morning (between 08.00 and 14.00 hour).

This applies to both online speech therapy and the treatments in practice, during the corona pandemic.

We rely on your understanding for this, but if further explanation is needed, we are ready to answer your questions.

Yours sincerely,

Team ISTO
